Aug 2018 – May 2022 · CGPA 7.71/10

PROFESSIONAL SUMMARY

Frontend Developer with **3.9 years** of experience designing and developing scalable enterprise web applications using **React.js, TypeScript, JavaScript (ES6+)**. Delivered **250 enhancements**, developed **20** reusable React components, and integrated **15** RESTful APIs across hospitality, healthcare, and enterprise publishing platforms. Experienced in frontend performance optimization using **lazy loading, code splitting, and responsive design** to improve application efficiency and user experience. Proficient in developing scalable frontend applications using React Hooks, Redux Toolkit, Context API, REST APIs, Jest, Cypress, Git, GitHub, and Agile methodologies. Strong ownership mindset with proven experience in **production support, peer code reviews, and delivering high-quality software solutions**.

WORK EXPERIENCE

Accenture - Packaged App Development Analyst

DEC 2024 → PRESENT

SENIOR FRONTEND DEVELOPER

Rosewood Hotels Luxury Booking Platform — *Rosewood Hotels*

Built destination discovery, room comparison, and reservation flows for a premium hospitality audience, where visual polish and brand experience mattered as much as functionality.

Web and Mobile Publishing Platform

Built and maintained enterprise content-publishing tools used internally to manage and distribute healthcare information across web and mobile, under strict regulatory and consistency requirements.

Accenture - Packaged App Development Associate

SEP 2022 → DEC 2024

FRONTEND DEVELOPER

Accor Hospitality Booking Platform — *Accor, Movenpick and Novotel*

Built the customer-facing booking experience across three Accor Group brands — hotel search, room comparison, reservations, and loyalty integration — with a focus on cross-brand UI consistency and a seamless flow across desktop and mobile.

Benlysta Patient Support Portal — GSK

Contributed to a healthcare patient-support platform where accuracy and accessibility were critical — implemented WCAG-aligned practices including semantic HTML and ARIA roles, plus screen-reader testing.

KEY RESPONSIBILITIES AND ACHIEVEMENTS

- Took ownership of enhancement and defect tickets end-to-end across four production platforms, consistently meeting Agile sprint commitments while maintaining high client satisfaction.
- Improved frontend performance and load times through lazy loading, code splitting, and responsive design techniques.
- Drove component reusability and API integration across booking, patient-support, and publishing modules, reducing duplicate code and easing long-term maintenance.
- Owned the full feature lifecycle — UAT, production deployment, and critical issue resolution — with minimal release downtime.
- Worked cross-functionally with designers, backend developers, QA engineers, and onsite stakeholders across Agile ceremonies and peer code reviews.
